

## Notice of Public Open House No. 2

### Class Environmental Assessment & Transportation Study For County Transportation Network in the General Area of the Peterborough Airport

The County of Peterborough has undertaken an Environmental Assessment (EA) and transportation study for the County Transportation Network in the General Area of the Peterborough Airport. Airport Road (County Road 11) has been closed in the vicinity of the airport in order to facilitate expansion of the airport infrastructure (runway extension).

The purpose of this study is to define a Recommended Plan that will meet the County's long term transportation needs as identified in the County's Transportation Master Plan, Airport Master Plan, the Fraserville Secondary Plan, and associated planning/EA studies (i.e. County Road 28 (Fraserville)), allow future development adjacent to the roadway (define right-of-way protection and road profile) and receive environmental clearance for the proposed roadway network in the vicinity of the Peterborough Airport.

The project is being planned as a Schedule 'C' project under the Municipal Class Environmental Assessment (2000) document. The EA Study will confirm project need and justification, document existing environmental conditions, examine alternatives and potential impacts, and recommend mitigation measures.

The second and final Public Open House (POH) meeting has been scheduled and will be held as follows:

Thursday, May 12, 2011  
Orange Lodge  
9 Whitfield Road  
Fraserville, ON  
4:00 to 7:00 pm

The second public open house will provide the public the opportunity to:

- Review the study background and process;
- Review the evaluation of alignment alternatives;
- Review the Technically Preferred Alternative- Airport Road realignment easterly;
- Review the Long Range Property Protection Plan;
- Review the study schedule; and
- Provide comments.

At the completion of the study, an Environmental Study Report documenting the effects anticipated by the project and the corresponding mitigation measures will be prepared and placed on the public record for public and agency review. There is an opportunity at any time during the EA process for interested persons to provide comments. Any comments received pertaining to the study will be collected under the Environmental Assessment Act and, with the exception of personal information, will become part of the public record.

For more information, or if you wish to be placed on the study's mailing list, please contact:
